

Firm Brings Malpractice Case Home for Local Biotech Firm

The firm represents Genesis Biosciences, a global leader in fermentation, microbial and antimicrobial products headquartered as its state-of-the-art production facility in Lawrenceville, Georgia. Genesis is currently involved in a lawsuit with its former counsel, Polsinelli PC, regarding inadequate legal work performed by attorneys in Polsinelli's Chicago office. Polsinelli originally filed the lawsuit against Genesis in the U.S. District Court for the Northern District of Illinois, but Robbins Firm attorneys successfully filed a motion to transfer venue in the case to the far more convenient U.S. District Court for Northern District of Georgia. The case is currently pending before Judge Eleanor Ross.

For more information, please contact Richard Robbins or Matt Parrish.
